The value and pricing information displayed for a particular vehicle is based upon the specification, mileage and/or condition information provided by the person generating this report. Kelley Blue Book assumes no responsibility for errors or omissions. The Kelley Blue Book® Typical Listing Price is representative of dealers' asking prices for a used car. It assumes that the vehicle has been fully reconditioned and has a clean title history. This price also takes into account the dealers' profit, costs for advertising, sales commissions and other costs of doing business. The final sale price will likely be less, depending on the car's actual condition, popularity, type of warranty offered and local market factors. In other words, it's the price you should expect a dealer to ask - not always the price you should pay.
